A few notes about these definitions:
Each of these definitions has been carefully researched and closely analyzed from theoretical and practical perspectives for inclusiveness, cultural sensitivity, common usage, and general appropriateness. We have done our best to represent the most popular uses of the terms listed; however there may be some variation in definitions depending on location. Please note that each person who uses any or all of these terms does so in a unique way (especially terms that are used in the context of an identity label). Asking people for further information and/or clarification about the way in which they use the terms is encouraged. This is especially recommended when using terms which we have noted that can have a derogatory connotation.

This being said, individual female-identified people from diverse ethnic groups, including African-Americans, embrace the term ‘lesbian’ as an identity label.

This term is sometimes used as a sexual orientation label instead of ‘bisexual’ as a way of acknowledging that there are more than two genders to be attracted to, or as a way of stating a non-heterosexual orientation without having to state who they are attracted to. 3. A reclaimed word that was formerly used solely as a slur but that has been semantically overturned by members of the maligned group, who use it as a term of defiant pride. ‘Queer’ is an example of a word undergoing this process. For decades ‘queer’ was used solely as a derogatory adjective for gays and lesbians, but in the 1980s the term began to be used by gay and lesbian activists as a term of self-identification. Eventually, it came to be used as an umbrella term that included gay men, lesbians, bisexuals, and transgendered people. Nevertheless, a sizable percentage of people to whom this term might apply still hold ‘queer’ to be a hateful insult, and its use by heterosexuals is often considered offensive.
